**SUMMARY OF THE REASONS FOR DECISION:**

The untitled photographic material, also known as *Item 28 Sleeve containing a negative*, has been classified as:  
Unrestricted.

The publication consists of a colour negative framed with a narrow border of black. The photograph has been taken from a road in the foreground and looks over a wooded area to large buildings set on a hill. A tower, considerably higher than the other structures, can be seen on the far side of the buildings. The image forms part of a large quantity of photographic material by the photographer David Hamilton.

The negative does not raise any matters of concern under the Films, Videos, and Publications Classification Act 1993 and is therefore classified as unrestricted.
